[https://www.reddit.com/.../im\\_a\\_17\\_year\\_old\\_trying\\_to\\_purcha.../](https://www.reddit.com/.../im_a_17_year_old_trying_to_purcha.../)

I plan to buy a \$2500 computer. If I had a car, I would be misaerably broke. Then, the CIA would have me as a slave. If I do not buy a car, I am a happy free man and I get exercise.

I'm a 17 year old trying to purchase a used car specifically looking in the \$3000-\$5000 range....

Chess is atheists who think about IQ a lot. The despirately want their kids to be smart. They think about eugenics a lot. The chess elite are at the center of this world.

The Creat6or is good. Just like with sports, though, these people worship idols and send the kids into the fire... if you interpret in a modern sense, maybe. God just said this about sports -- another god. He's jealous! It may or may not be petty, retards! LOL

38 "You have heard that it was said, 'Eye for eye, and tooth for tooth.' [h] 39 But I tell you, do not resist an evil person. If anyone slaps you on the right cheek, turn to them the other cheek also. 40 And if anyone wants to sue you and take your shirt, hand over your coat as well. 41 If anyone forces you to go one mile, go with them two miles. 42 Give to the one who asks you, and do not turn away from the one who wants to borrow from you.

God is perfectly just -- eye for eye, tooth for tooth. You can put-off my glory. I will wait. You will suffer eye-for-eye in the future. Might not sound scary, but imagine being a worthless piece of shit like Paul McCartney for the rest of your fucken life with zero hope. Zero hope--worthless shit. Or, you can give me my rightful turn at glory.

Jesus was very conformist. He said "The Father cares for the sparrows. He knows the birds of the Heavens." I thought He just made that up -- pretty minor and self apparent. I was really moved when I found "I know all the birds of the Heavens." in the Old Testament. Good Jews are very humble and strict followers of laws, ridiculously. You know... if you think about it, how do birds have food and not starve. They can't store that much body fat.

RAN Magazine » An Insider's Educational Experience

Among the major benefits of being a teacher in a foreign country are the opportunities it provides for meeting and speaking with the "natives". Over my "career" in Japan, I've interacted with a broad spectrum of students: from 2 year-old children (and younger) to people in their 80's, from office la...

February 6, 2013 · 

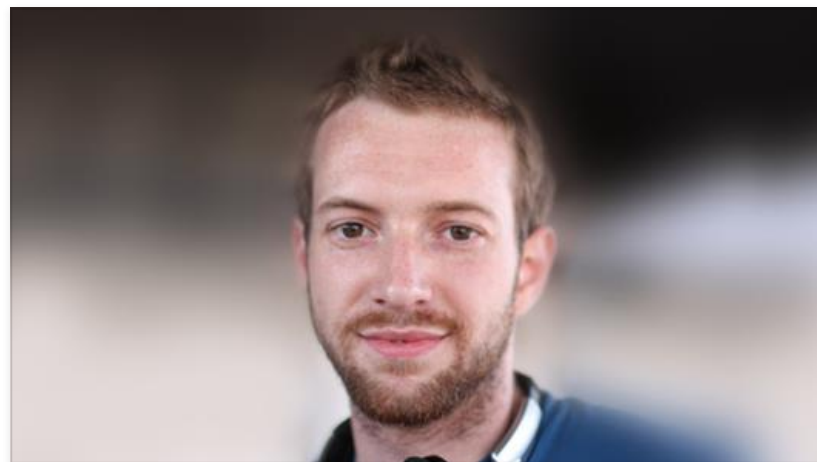

I said I admired home ownership. A good person takes-on responsibility and commitment. I said an achievable and noble American dream was home ownership, superior to being a professional athlete or musician. Now, I've learned liberal bullshit like nonracial awareness is bad policy. If you govern Zimbabwe, you don't use Norway's government, just because its fair in an ideal world. We all live on the same planet. By the way -- I now feel life is a journey, not a destination. Should we tell entrepreneurs not to try because most will fail. They will. They won't even eventually succeed, they will never succeed.

Nonvolatile RAN is the future. Map the Hard disk to 2000,0000,0000,0000-DFFF, FFFF, FFFF, FFFF with user space below and kernel above. I guess you want those as physical addresses (doesn't matter then). Your file system should just be 64-bit byte pointers, not block pointers. All your directory structures should be 64-bit pointers. You wouldn't have to load files, if you wanted, just map them. I guess you want the MMU to automatically handle the difference in access times.

Bare metal OS is what you want if you want to rough-it. That's a tent. Mine is a nice motor home. It's trivial to get optimal performance -- use bare metal! Yawn. I don't sell performance. I sell simplicity and a C/C++ shell instead of BASIC in a C64 like setup.

I wrote 138,000 lines of code in 9 years, an operating system with compiler. My reality is broken -- I'm in some kind of prison. Most Asians are so far below me, they actually don't believe one person can write a compiler -- Indians. Plenty of white people have written compilers -- Dennis Richie, etc.

### Asian workers now dominate Silicon Valley tech jobs

The percentage of Asian tech workers grew from 39 percent in 2000 to just more than 50 percent in 2010 in Santa Clara, San Mateo, Alameda, Contra Costa and San Francisco counties combined, according to Census Bureau statistics.
